

Versatile screening system

combining light control, privacy and insect protection.

Suitable for
windows, doors
and room dividers.

Suitable for
both residential
& commercial
applications.

Available in
Slimline and
Retractable
systems.

One System. Two Solutions.

BLOCK-OUT SCREEN

INSECT SCREEN

INNOVATIVE. FUNCTIONAL. BEAUTIFULLY DESIGNED.

DUAL SCREEN

Two functions in one stylish system. Combines a block-out screen and an insect screen in a single frame. Screens can also operate independently. Provides privacy, light control and uninterrupted airflow, while keeping insects out.

BLOCK-OUT SCREEN

Provides excellent privacy. Reduces unwanted light and glare. Creates a more comfortable indoor environment. Ideal for bedrooms, media rooms and living spaces.

INTERLOCKING PANELS

Designed for larger openings. Additional panels interlock seamlessly for extended coverage. Creates a clean, continuous appearance. Ensures a precise fit and smooth operation.

RETRACTABLE TRACK

Smooth-gliding system for effortless operation. Available as a framed or semi-trackless design. Delivers a sleek, modern finish.
